

e-Informatica Software Engineering Journal Author's Agreement

This form is intended for original material submitted to e-Informatica Software Engineering Journal and must accompany any such material to be published by the Journal. No other form may be substituted. Please read the text carefully and keep a copy.

TITLE OF PAPER:
Eliciting and Prioritising Requirements for an Explainable Personal Finance Decision-Support System: An Empirical Study of Stated versus Revealed Decision Behaviour

COMPLETE LIST OF AUTHORS:

Evdokimov Vasiliki Maksimovich

The undersigned hereby certifies that:

- (1) the information contained in any materials submitted to e-Informatica Software Engineering Journal in connection with the paper is not subject to any restriction related to its disclosure,
- (2) all necessary authorization(s) from the undersigned's employer(s) for the disclosure of the information discussed in the paper have been obtained,
- (3) the paper is original and that he/she is the author of the paper; to the extent the paper incorporates text passages, figures, data, or other material from the works of others, the undersigned has obtained any necessary permissions,
- (4) the paper is not submitted elsewhere,
- (5) if accepted the paper will be published in e-Informatica Software Engineering Journal under the CC-BY 4.0 license.

e-Informatica Software Engineering Journal reserves the right to refuse publication of the paper for failure to certify the foregoing and to retract the paper.

Authors/employers retain all proprietary rights in any process, procedure, or article of manufacture described in the paper.

Because e-Informatica Software Engineering Journal is accessible for free on the Web, authors are kindly asked to link to the e-Informatica Software Engineering Journal Web page, where all papers are freely available. Authors are permitted to include copies of the papers on private home pages, university web sites and/or self-archive them. The undersigned is free to reuse the material of the article in another publication, provided the new publication is substantially different from the original article. In such a case it is required that the author include a citation of the original e-Informatica Software Engineering Journal article. Authors are expected to follow high standards with respect to publication ethics (see <https://www.e-informatyka.pl/attach/e-Informatica/Ethics.pdf>).

The undersigned agrees to indemnify and hold harmless e-Informatica Software Engineering Journal from any damage or expense that may arise in the event of a breach of any of the warranties set forth above.

In the event the above work is not accepted and published by e-Informatica Software Engineering Journal or is withdrawn by the author(s) before acceptance by the Journal, this form agreement becomes null and void.

Policy on Original Publication: By submitting your manuscript to the journal it is understood that this is an original manuscript and is unpublished work and is not under consideration elsewhere. Plagiarism, including duplicate publication of the author's own work, in whole or in part without proper citation is not tolerated by the journal. Manuscripts submitted to the journal may be checked for originality using anti-plagiarism software. Manuscripts that have been submitted simultaneously to other magazines, journals or to conferences, symposia, or workshops without the prior written consent of the Editor-in-Chief will be rejected outright and will not be reconsidered. Publication of expanded versions of papers that have been disseminated via proceedings or newsletters is permitted only if the Editor-in-Chief judges that there is significant additional benefit to be gained from journal publication and authors satisfy copyright law. A conference chairperson can arrange with the Editor-in-Chief to publish selected papers from conferences, symposia, and workshops, after suitable reviewing. The papers must meet the editorial requirements for research articles. Acknowledgement of the originating conference should be included by the authors as a credit when the paper is published by the Journal.

Authorship: All authors listed on the manuscript should have contributed significantly to the paper (e.g., experimental design, its implementation, or analysis and interpretation of the data). It is dishonest to include authors only because of their reputation, position of authority, or friendship ("guest authorship"). All authors should have been involved in the writing of the manuscript at draft and any revision stages and have read and approved the final version. Anyone who made major contributions to the writing of the manuscript should be listed as an author. Any other individuals who made less substantive contributions to the writing of the manuscript (or to the performed experiment) should be listed in the acknowledgement section. Performing technical services, translating text, identifying patients for study, supplying materials, and providing funding or administrative oversight over facilities where the work was done are not, in themselves, sufficient for authorship, although these contributions may be acknowledged in the manuscript. Any change in authorship (including author order) after the initial manuscript submission must be approved in writing by all authors. "Ghost writing" is prohibited by the Journal. When editors detect ghost written manuscripts, it will be documented, and the authors' academic institutions or commercial companies will be alerted.

Conflicts of interest: At the point of submission, each author should reveal any financial interests or connections, direct or indirect, or other situations that might raise the question of bias in the work reported or the conclusions, implications, or opinions stated.

Evdokimov V.M.

Author/ Authorized Agent for Joint Authors

03.06.26

Date

For jointly authored papers, all joint authors should sign, or one of authors should sign as agent for the others.
